**eHeritage - Expanding the Research and
Innovation Capacity in Cultural Heritage
Virtual Reality Applications**

eHERITAGE's partnership with the History Museum of Brasov

The staff from the University Transilvania of Brasov engaged in the project eHERITAGE (Expanding the Research and Innovation Capacity in Cultural Heritage Virtual Reality Applications) had a fruitful meeting with the director of the History Museum of Brasov (<http://istoriebv.ro/>), Mr. Pepene Nicolae Dorin. We have explored various possibilities of collaboration within the eHERITAGE European H2020 project. We have concluded on several future activities, including opportunities to conduct research within the Museum of History of Brasov, together with our partners, Jožef Stefan Institute and Scuola Superiore Sant'Anna. Various research themes were proposed, and based on the knowledge transfer between UTBv and JSI & SSSA, we are confident this is a big step in the development of our project.
