Virtual Reality Applications**

## eHERITAGE's participation to ARTE conference and to a 3D scanning workshop

The eHeritage consortium produced its first research paper, presented at the International Conference on Augmented Reality for Technical Entrepreneurs (ARTE'16 <http://www.camis.pub.ro/index.php/homearteconf>), titled "A MOBILE APPLICATION FOR DISCOVERING BRASOV MONUMENTS USING AUGMENTED REALITY". The Augmented Reality study was carried out jointly with SSSA.

During this event, our staff also participated to a workshop on 3D scanning.
