**eHeritage - Expanding the Research and
Innovation Capacity in Cultural Heritage
Virtual Reality Applications**

Intensifying the collaboration between eHERITAGE's members

During this month, the staff from all 3 project partners (University Transilvania of Brasov, Jožef Stefan Institute and Scuola Superiore Sant'Anna) collaborated intensively on 2 research papers which were sent to the 3rd International Conference on Augmented Reality, Virtual Reality and Computer Graphics (SALENTO AVR 2016). This event will take place in Otranto (Lecce, Italy), next month. Part of our team (Mihai Duguleana, Cristian Postelnicu and Florin Garbacia) are preparing themselves for the short external stage which will be held at the premises of Scuola Superiore Sant'Anna during June-July, 2016.

3D Reconstruction as a Service – ongoing research and knowledge transfer
