eHERITAGE participates in the First World War centenary exposition hosted by the National Museum of History from Braşov

Capitalizing on the information gained during the first phase of the project and based on several meetings with the director of the National Museum of History from Braşov, Mr. Nicolae Pepene, eHERITAGE members rallied up and presented a VR stand at the First World War centenary exposition which takes place in the National Museum of History from Braşov. This event started on 27th of August and will last until the end of December. Visitors can interact with gestures and activate a 2D infotainment screen which presents various data related to the 1916-1918 period, including text, images, video and sound.
