Upcoming Advanced Study Institute

eHERITAGE consortium is proud to announce the upcoming “Advanced Study Institute” (ASI), an event which will take place next month in Padova, Italy.

Having the topic “Virtual Reality technology and applications in Culture and Arts”, ASI includes a series of 6 workshops in the area of cultural heritage. The event is kindly hosted by the University of Padova in the Aula Magna “A. Lepschy” of the Department of Information Engineering.

The courses are brought by lecturers of international standing. The researcher Ales Tavčar from the Jožef Stefan Institute will hold a workshop about virtual assistants. Professors Federico Avanzini and Michele Geronazzo, our hosts from the University of Padua, will hold a lecture on virtual sound for musical cultural heritage. Professor Marcello Carrozzino from the Scuola Superiore Sant’Anna di Pisa will teach how to build XVR applications for cultural heritage. The well-known expert Marco Callieri from Istituto di Scienza e Tecnologie dell’Informazione (ISTI-CNR) will sustain a Meshlab tutorial. Professors Eva Pietroni and Alfonsina Pagano from Consiglio Nazionale delle Ricerche will teach the participants how to design user experiences inside museums and cultural heritage sites. Last but not least, the expert Vid Peterman will hold a tutorial on the 3DSurvey software.

The banner features the text "Advanced Study Institute" in a large, serif font, with "eHERITAGE project" in a smaller, sans-serif font below it. A decorative floral logo is positioned between the two lines of text. The background is a photograph of a classical building with columns, set against a bright, hazy sky. At the bottom of the banner, a row of logos is displayed, including the University of Padova, Sant'Anna Scuola Universitaria Superiore Pisa, Institut "Jožef Stefan" Ljubljana, Slovenija, ISTI ISTITUTO DI SCIENZA E TECNOLOGIE DELL'INFORMAZIONE "A. FAEDO", Consiglio Nazionale delle Ricerche, 3DSurvey, and the European Union flag.

Looking forward to meeting you there!
