eHeritage - Expanding the Research and Innovation Capacity in Cultural Heritage Virtual Reality Applications

eHERITAGE in December 2018

Several news came and several activities were undergone by our staff this month. For starters, our project was featured in the most recent ENCATC newsletter. Moving on, one member of our team was invited to Radio Brașov, a local radio station, for a quick talk on technology, innovation and creativity. We've met here with Silvia-Daniela Pohrib, the co-founder of LearnEx, a hub focused on providing for technological education to children of all age. Our promise was to jointly write and submit a project proposal for one of the EEA upcoming calls. We've interacted with business owners such as Jason from Vacuums Guide about expanding our 3D models database. Last but not least, we've attended the Forum of the European Year of Cultural Heritage in Romania as part of the EYCH initiative. This was a full year with a lot of events, activities and other types of work covering most of our time.
